## Technical Skills

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, JSON
- **Frontend:** React, Next.js, React Server Components, Tailwind CSS, shadcn/ui, Radix UI, React Hook Form
- **State & Data:** TanStack Query, Redux Toolkit, Zustand, Axios
- **Backend & APIs:** Python, FastAPI, Node.js, Express.js, REST APIs, PostgreSQL, BFF, MongoDB, MySQL, Prisma
- **Authentication & Payments:** OAuth 2.0, OIDC, JWT, JWKS, PKCE, Stripe
- **Testing:** Jest, React Testing Library, Playwright, Selenium, Chrome DevTools
- **DevOps & Cloud:** Docker, GitHub Actions, AWS, Vercel, Netlify, CI/CD
- **Tools & Practices:** Git, GitHub, Jira, Confluence, Figma, Agile/Scrum, Accessibility (WCAG)

## Work Experience

### Senior Software Engineer (Next.js / TypeScript)

SwitchFX Technologies (via Interface Solutions Ltd.) - Remote | Sep 2025 - Present

*SwitchFX Technologies is an IT Services and IT Consulting company based in Georgia, USA. Working through Interface Solutions Ltd., Bangladesh.*

- Sole front-end engineer for three production SaaS applications - **Newsora, SwitchFX Auth, and SwitchFX MyAccount** - owning architecture, UI development, integrations, and production delivery.
- Built **Newsora** with Next.js 16 (App Router, React Server Components), React 19, TypeScript, Tailwind CSS v4, and shadcn/ui, delivering developer dashboards, live news search, API-key management, usage tracking, interactive API documentation, billing, and marketing pages.
- Designed a **Backend-for-Frontend (BFF)** layer with **30+ Next.js route handlers**, including server-side token forwarding, Zod response validation, and a unified typed error-handling contract.
- Implemented **OAuth 2.0/OIDC authentication**, JWT/JWKS verification, httpOnly cookie sessions, and silent token refresh using Next.js middleware and Axios interceptors.
- Delivered multi-tenant organization features including **role-based access control (RBAC), team management, email invitations, organization profiles, API-key management, and Stripe billing** with plan changes, proration, invoices, and customer portal integration.
- Built **SwitchFX Auth** and **SwitchFX MyAccount** for centralized SSO, email verification, password management, profile completion, OAuth/PKCE flows, and account management.

*Tech Stack:* Next.js 16, React 19, TypeScript, Tailwind CSS v4, shadcn/ui, Radix UI, TanStack Query, Axios, Zod, React Hook Form, OAuth 2.0/OIDC, JWT/JWKS, Stripe, Docker, GitHub Actions, AWS

### Senior Software Engineer

Adventure Dhaka Limited - Dhaka, Bangladesh | Jun 2024 - Aug 2025

*An offshore software development company based in Tokyo, Japan.*

- Built responsive, accessible, and reusable UI components using **React.js, Next.js, TypeScript,** and **SASS**.
- Integrated **CCAvenue (India)** and **SSLCOMMERZ (Bangladesh)** for secure online payments.
- Designed and implemented a **loyalty points module** to reward frequent ticket purchases and increase customer retention.
- Conducted unit, integration, and end-to-end testing with **Jest, React Testing Library,** and **Playwright**, improving reliability and reducing production bugs.
- Deployed features through **CI/CD** pipelines using **GitHub Actions** and **Docker**, ensuring efficient and automated releases.
- Optimized performance, **reducing page load times by 30%** and improving the overall booking experience.

*Tech Stack:* React.js, Next.js, TypeScript, Redux Toolkit, SASS, Jest, Playwright, React Testing Library, GitHub, CI/CD, Docker
*Key Project:* SkyTicket – Air Ticket Booking App, Adventure - Travel Booking Platform

### Front-End Engineer

Shakti Foundation - Dhaka, Bangladesh | Jan 2021 - May 2024

*A leading NGO providing microfinance and digital solutions for women empowerment in Bangladesh.*

- Developed **Shakti ERP** with **React.js and Redux**, digitizing loan, savings, and client management for 500K+ beneficiaries.
- Built an **SME mobile app** with **React Native and Firebase**, improving accessibility and adoption for rural entrepreneurs.
- Designed finance, HR, and operations modules, streamlining workflows and cutting manual paperwork by 60%.
- Integrated **data visualization** dashboards with **Chart.js, ApexCharts**, and Power BI, enabling data-driven decision-making.
- Implemented **responsive, accessible UIs optimized** for low-bandwidth environments, improving usability across devices.

*Tech Stack:* React.js, Redux, React Native, Firebase, CSS3, SASS, Jest, React Testing Library, Selenium, D3.js, Chart.js, ApexCharts, Power BI
*Key Project:* Shakti ERP System, Shakti SME Mobile App, Shakti ORG

### Front-End Developer → Sr. Front-End Developer / Team Lead

B-cause Bangladesh., Ltd. - Dhaka, Bangladesh | Jul 2017 - Dec 2020

*A Tokyo, Japan-based offshore software development company delivering ERP, Job Portal, and HR tech.*

- Promoted from **Front-End Developer to Team Lead**, leading projects such as B-Cause ERP, Hiwork Job Portal, and Editing Pro.
- Developed scalable and reusable UI components using **Angular, React.js, and Vue.js**, ensuring maintainability and performance.
- Implemented **responsive design and cross-browser compatibility**, improving user experience across global platforms.
- Mentored junior developers, conducted code reviews, and streamlined team workflows to improve delivery speed and quality.

*Tech Stack:* Angular, React.js, Vue.js, JavaScript, jQuery, CSS3, SASS, Bootstrap, Materialize CSS, Chart.js, JSON, Axios, Google Maps API
*Key Projects:* Editing Pro, B-Cause ERP, Trans Pro Australia, Manga Trans, JFHRA, Eng Test Grading, PC Monitoring, Inbound Trans, Hiwork Client, Academic Editing, Online Trans, MultiTranslation Services, Hiwork Job Portal, Media Trans

### Author

Envato (ThemeForest) - Melbourne, Australia | Apr 2017 - Jun 2017

- Created **NEON**, a responsive HTML portfolio and resume template using **HTML5, CSS3, Bootstrap, JavaScript, and jQuery**.
- Achieved **17 sales across 10+ countries**, including the US, Germany, and Singapore.

*Key Project:* NEON - Personal Portfolio Template

### Web Developer

Talukder Software Ltd. - Dhaka, Bangladesh | Jan 2017 - Jun 2017

- Developed and customized websites for diverse projects, including **e-commerce**, **online newspapers**, and **enterprise platforms**.
- Converted **PSD designs to responsive HTML/CSS** with Bootstrap and jQuery, ensuring cross-browser compatibility.
- Designed and customized **WordPress themes**, delivering user-friendly and scalable solutions.

*Tech Stack:* HTML, CSS, Bootstrap, jQuery, JavaScript, Adobe Photoshop, Adobe Illustrator, Google Maps API, WordPress
*Key Projects:* Wholesale Vinyl Fencing, News Peoples BD, LabStats, SickTop, Resolve, TagsBay, Mtn Disciple

## Open-Source Contribution

**01. Nexus | REST API** - GitHub ↗
Node.js + Express.js REST API for a social app with MongoDB, authentication, posts, likes, follows, and timelines.

**02. ShopBox | MERN Stack eCommerce Solutions** - GitHub ↗
MERN e-commerce app with authentication, cart, orders, reviews, responsive UI, and PayPal integration.

**03. Clean Redux Pattern** - GitHub ↗
React.js state management boilerplate with Redux, Redux Thunk, Axios, async/await, and modular architecture.

**04. IGDb | Internet Game Database** - GitHub ↗
React + TypeScript game app with Zustand, TanStack Query, RAWG API, search, filters, infinite scroll, and caching.

## Education

### B.Sc. in Computer Science & Engineering (CSE)

Bangladesh University | Dhaka, Bangladesh | Sep 2013 - Feb 2017

## Languages

- **English** – Professional working proficiency | **Bengali** – Native
